

Fractions Math Flash Cards

What Will Students Learn?

Hot Dots® Fractions Flash Cards are two cards in one! Use the cards with the Hot Dots® pen (sold separately) for independent review and practice of fractions, or use the cards by themselves as traditional flash cards. This set provides practice in identifying fractions as part of a whole or a group, comparing fractions, and recognizing equivalent fractions.

What's on Each Card?

Using the Cards with the Hot Dots® Pen

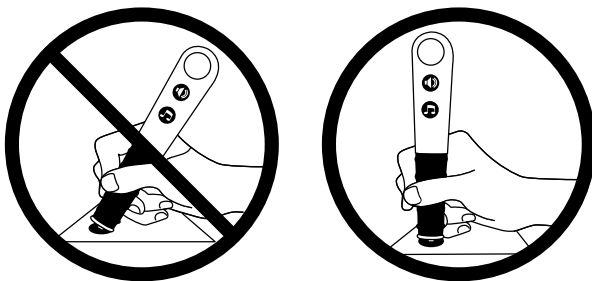

Independent practice is easy with Hot Dots® Flash Cards and the pen. First, read the problem (for example, "Find the missing sign.") and look at the corresponding picture. Then look at the answer choices. Use the pen to select the correct answer. The pen gives instant feedback. When a correct answer is selected, the pen lights up and makes one of several fun, congratulatory sounds. If an incorrect answer is selected, the pen provides encouraging words.

Demonstrate how to use the pen with the Hot Dots® Flash Cards before learners work independently. Show how to position the pen on a Hot Dot answer choice. Make sure the tip of the pen touches the center of the dot below the answer, and that it sits flat on the surface of the Hot Dot.

TIPS

- Do NOT laminate the cards. The pen cannot detect correct and incorrect answers when cards are laminated.
- Make sure the cards rest on a hard surface, such as a tabletop, when using the pen on them.

How to Position the Hot Dots® Pen

Make sure the tip of the Hot Dots pen sits flat on the surface of the answer dot as shown above.

Using the Cards as Traditional Activity Cards

Hold up a card with the question facing the child. Have the child read the problem (for example, "Which fraction is greater?") and then say the answer. Check answers on the included answer sheet.
