Annual Message to the Community 2020: A Year Like No Other!

At all times our talented and dedicated staff strives to provide the best service to the Longwood community. This past year started out like so many others: we had goals and plans for expanding and improving services, and we jumped right in.

Starting in January 2020, the Board of Trustees decided to eliminate overdue fines from most library items. Many libraries across the country had made this change and found that it brought back lots of patrons who had stopped using the library because of fines owed or the fear of incurring fines. Two months later, we rolled out our new Canteen Micromarket, a coffee/snack area near the library entrance, meant for patrons to enjoy while they used the library. We joined the Sustainable Libraries Initiative. We continued to expand our popular Equipment & Gadgets collection and started planning more STEAM/Maker programs to make use of our brand-new 3D printer. What a great start we had for our year's goals.

And then in mid-March, everything changed. On March 16, in order to flatten the curve, the library building was closed and library staff was sent home to work remotely. In the weeks following, our staff re-conceptualized as many services as possible. We took programs online, created digital library cards, answered questions online and via chat, expanded online services including homework help, added to electronic collections (eBooks, streaming video and more), and worked hard to promote our content and connect with patrons online. We even sent our 3D printer to a "print farm" to help make PPE for local frontline workers!

2021-2022 Annual Budget Vote & Trustee Election

Annual Message to the Community

continued from page 1

In June we returned to the building and rolled out Curbside Service. This again required rethinking our service model, from figuring out how to quarantine returned library items to creating new ways for staff to safely work in the building. In July, our plans evolved again as we reopened the building in the current Limited Services model: we offer Browse & Borrow, one-hour computer use, faxing, scanning, photocopying, and of course we are here to answer your questions. We continue to offer Curbside Service for those who prefer it, expanding to include Curbside Crafts and Curbside Community Service for teens and children. As the situation changes, we continue to monitor local and state health department guidance as we make plans for a “post-COVID” LPL. What will it look like? We are not exactly sure, but we know that expanded virtual services are definitely a part of our future, even as we eagerly look forward to re-introducing traditional in-person services.

Last year, the Library Board of Trustees announced that there would be no budget increase in the current year. As a result, 2020-2021 library taxes for residents were not only level, but in fact actually decreased due to the overall valuation of the district.

This year, the Board of Trustees is pleased to announce that the small proposed increase is well below the state tax cap. The anticipated increase to the average household is \$6.06 per year (approximately 50 cents per month). Details of the proposed budget are shown here and will be available in the library and online in early March. The Board will hold a budget information meeting on Wednesday, March 24 at 7:00 pm. Due to COVID-19, this meeting may be held virtually; details will be posted on the library website and the library bulletin board in advance.

Completed petitions for library trustee are due by 5:00 pm on Monday, March 8, and information about trustee candidates will be available in the library and on our website shortly thereafter. There is one seat on the Board of Trustees that is up for election.
